width 34cm

**Baloo L**  
high rack  
height 185cm  
depth 95cm  
width 35cm

NODI STUDIO x WITKA

The beginning of the Baloo collection dates back almost two years, when Agata Wiczak designed a unique shelf dedicated to the display of Nodi's ceramic workshop.

NODI STUDIO x WITKA

Originally, it was intended to serve merely as a decorative element for Nodi Studio's window display. Encouraged by the enthusiasm of many design lovers and customers themselves, Ania, the owner of the studio, decided to incorporate the piece of furniture into her assortment, thereby enriching the product family. The designed furniture pieces reference the flagship colors and style of the brand.

NODI STUDIO x WITKA

NODI STUDIO x WITKA

The Baloo collection has been expanded to include models of a bedside table and a larger shelf, creating a comprehensive set of three pieces of furniture.

Our goal was to bring elements of playfulness and boldness into everyday life. This is manifested not only through the form of the furniture but also through their color palette.

# VENUS LAMP

The Venus Lamp is a unique artisanal product, crafted with passion and precision in Poland using porcelain. The user decides on the number and arrangement of disks, as well as their colors, shaping not only the appearance but also the final price of this exceptional lamp. The light source can be dimmed thanks to the porcelain dome (E) or have a functional character with a glass sphere (F). The finish of the largest disk (D) is always matte

proposals for disc arrangements:

fixed elements:

variable elements:

basic colors:

In addition to the basic color palette, we can also fulfill individual orders (please contact us)

nodi.ceramics@gmail.com

Suggestions for disk arrangements with dome E:

# NESO LAMP

The base of the Neso standing lamp consists of three porcelain disks, whose colors are chosen by the user. This allows it to be perfectly tailored to any interior. The glass dome, from which light emanates, always has a glossy finish, while the porcelain disks can have either matte or glossy finishes. It is possible to use a color-changing light bulb, which during the day transforms Neso into a mini sculpture, and in the evening, it creates a unique atmosphere.

Suggestions for arranging disks with dome F:

# DONUT

The porcelain Donut object is perfect as a unique wall decoration or, when placed flat, as a whimsical tray.  
Each piece is handmade from porcelain, so it's not a perfect circle.

basic colors:

Material: porcelain

Country of production: Poland
