

THESU

COLLECTION

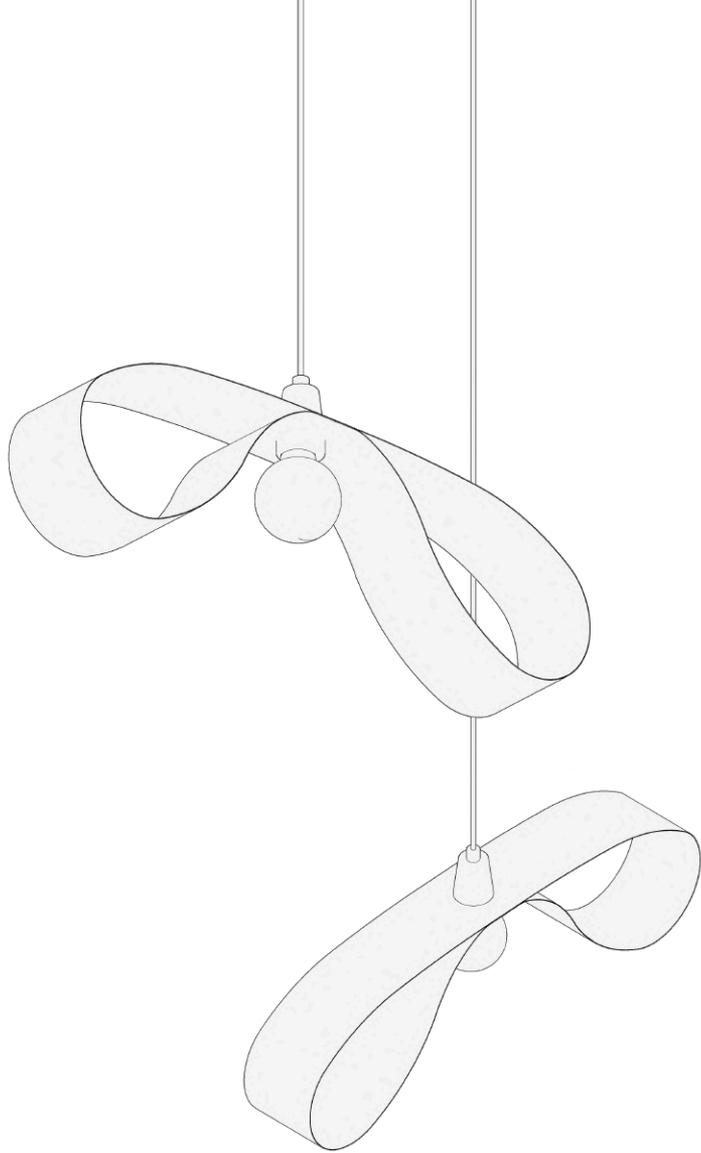

2024

THESU is a space
that combines art, nature
and freedom to create.

Our mission was inspired by the extraordinary work of Magdalena Abakanowicz and her symbolic paintings of birds, which for me are a metaphor of unlimited freedom in expressing yourself.

At THESU – we create a place where
everyone can feel like an artist
and a creator of a unique work of nature.

Our goal is to inspire people to express
themselves through art and design
and to promote the value
of handmade work and uniqueness.
